PLANO

SOIL CONDITIONER
AND AMELIORANT

plantneeds 

PLANO is Plant Needs Neem Oil, a Natural product extracted from neem seeds, it contains sulfur, proteins, glycerides and trace elements. Recommended for all crops, seeds and seedlings.

PLANO APPLICATIONS

- ❖ PLANO is recommended as a plant nutrient and soil conditioner. Plano can be applied only to soil or growing media through fertigation or drenching.
- ❖ PLANO is not a pest controlling agent.
- ❖ PLANO is normally in liquid form, but will solidify during winter or when the temperature is less than 20°C, if that happens immerse the whole container in hot water for 45 minutes with the lid closed till it turns back to liquid forms.

Available Weights:

5 Ltr, 20 Ltr, 200 Ltr, 1000 Ltr

BENEFITS

- **PLANO** is natural product, so it is safe towards the environment, soil & plants.
- **PLANO** once applied, will be absorbed quickly through the root systems and translocates throughout the plant system.
- **PLANO** contains glycerides and lipids, so it helps in following ways:
 - Lipids serves as storage of metabolic activity.
 - Protection against dehydrations and pathogens.
 - Carrying of electrons and absorption of lights.
- **PLANO** contains sulphur and vitamins, which helps the plants to supply nutrients directly.
- **PLANO** will help in oxidation of soil and creates more aerobic condition.
- **PLANO** will help in detoxifying the soil and balancing the soil pH by flushing out the excess salts from the soil.
